

KAUSTUBH LANDE

Frontend / React Web Developer

Phone: +91-7796007118 | **Email:** kaustubhlande52@gmail.com

LinkedIn: [linkedin.com/in/kaustubhlande](https://www.linkedin.com/in/kaustubhlande) | **GitHub:** github.com/kaustubhlande

Profile Summary

Frontend Developer with 2+ years of experience engineering high-performance, responsive web applications using ReactJS, JavaScript (ES6+), and modern CSS frameworks. Proven track record in consuming enterprise-grade RESTful APIs, architecting scalable component-based UIs, and optimizing client-side performance. Experienced in cross-functional agile environments leveraging Git, Jira, and Postman to streamline full-lifecycle delivery. Adept at bridging the gap between technical backends and intuitive frontend interfaces to deliver accessible, secure, and business-focused web solutions. Comfortable using AI-assisted tools (e.g., GitHub Copilot, ChatGPT) to speed up debugging and boilerplate code generation.

Technical Skills

- **Languages & Frontend Technologies:** ReactJS, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, CSS Grid, Flexbox, Responsive Web Design
- **State & Data Management:** React Hooks, Redux Toolkit, Context API, REST APIs, Axios, Fetch API
- **Backend & Databases (Basic/Integration):** PHP Core, Node.js, MySQL, MongoDB, PostgreSQL
- **Developer Tools & Platforms:** Git, GitHub, VS Code, Postman, Vite, npm, Jira, Azure, Figma (Figma to React)
- **Core Competencies:** SPA Architecture, UI/UX Optimization, Cross-Browser Compatibility, Performance Tuning, Agile/Scrum
- **Web Standards & Engineering:** Web Vitals, Performance Optimization, Cross-Browser Compatibility, Semantic HTML, Clean Architecture, Code Splitting

Professional Experience

Softgrowth Infotech LLP

Frontend Developer | Feb 2024 – Present

- Engineered and deployed 10+ scalable, responsive single-page applications (SPAs) using **ReactJS, JavaScript (ES6+), and Tailwind CSS**, boosting mobile traffic engagement across client platforms by 30%.
 - Modularized UI infrastructure by building 40+ reusable React components using **React Hooks, Redux Toolkit, and Context API**, reducing codebase redundant lines by ~25% and accelerating feature delivery time.
 - Integrated complex **RESTful APIs via Axios/Fetch**, using **Postman** for API testing and implementing robust error-handling, loading states, and client-side data validation protocols.
 - Conducted frontend performance tuning—including image optimization, lazy loading, and code splitting in **Vite**—improving overall page load speeds by up to 35%.
 - Partnered with UI/UX designers and backend teams using **Git, GitHub, and Jira** within Agile sprints to deliver pixel-perfect interfaces matching Figma design specifications.
 - Resolved cross-browser rendering issues across Chrome, Firefox, Safari, and mobile viewports, maintaining a 99%+ cross-device design fidelity.
-

Projects

Chandrapur Police Society Bank – Loan & Policy Management System

Tech Stack: JavaScript, HTML, CSS, Tailwind CSS, MySQL, PHP Core

- Architected dynamic dashboard interfaces with role-based access control (RBAC) for Super-Admin, Admin, and User roles, securing sensitive banking workflows.
 - Designed multi-step interactive wizard forms for loan and policy applications, integrating custom client-side validation logic to eliminate bad data submissions.
 - Implemented dynamic data tables for complex CRUD operations, real-time EMI progress tracking, and scheduled alert indicators for payment deadlines.
 - Engineered automated calculation engines for loan interest and EMI projections, reducing manual calculation errors by 40% and accelerating approval workflows.
-

Grantha Land Developers – Project Management & Plot Deal Management System

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS, MySQL, PHP Core

- Developed a multi-panel portal tailored for Admin, Sales Leader, Advisor, and Customer roles to manage real estate land plot bookings and financial records.
 - Built dynamic modules for payment tracking, automated commission calculations, and deal tracking, streamlining daily operational tracking for 500+ properties.
 - Integrated asynchronous API calls to load client data dynamically without full-page reloads, enhancing UI responsiveness.
 - Designed an interactive visual grid component for real-time plot status mapping (available, booked, reserved), improving customer query resolution time.
-

Education

PG Diploma in Advanced Computing (PG-DAC)

CDAC (ACTS) Bangalore | March 2023 – Sept 2023 | Grade: A

Bachelor of Engineering in Information Technology

Sinhgad Institute of Technology, Lonavala | June 2018 – Aug 2022 | CGPA: 8.34/10

Extracurricular & Community

- Organized and coordinated college technical symposia, managing registration workflows and event execution for 400+ participants.
 - Active participant in frontend developer communities, contributing to code reviews and technical workshops on modern JavaScript practices.
-
